**SFY 2026-27 SRO Program Solicitation
Application Workshop**

- ## What is the SRO Program?
  - The SRO Program is a state-funded program that can provide funding to local law enforcement agencies for the salary/fringe, training, and equipment for a full-time SRO assigned to an eligible school.

- ## How is the funding provided?
  - If an application is approved, an award is made to the law enforcement agency. Once the law enforcement agency assigns an SRO to an approved school, approved salary/fringe, training and equipment costs can be reimbursed to the law enforcement agency through a Request for Payment (RFP) accompanied by supporting documentation.
  - There is no local matching requirement.
  - The procurement, purchase, and reimbursement process will be explained in detail at a Project Management Course after an award is made.
    - For more information, last year's Project Management Course can be viewed at the SRO Program Website located at https://scdps.sc.gov/ohsjp/school-resource-officer-program.

- ## What schools are eligible for a state-funded SRO position?

  - Must be a public or charter school associated with **ONE** of the following:
    - A county school district
    - The South Carolina Public Charter School District
    - An institution of higher learning charter authorizer. Currently, this includes the Charter Institute at Erskine. Most previous Limestone Charter Association schools are now with the South Carolina Public Charter School District.

  - Must be a continuing state-funded SRO position **OR** a new position that does not have local funding for an SRO position from the school district, law enforcement agency, or a combination of any local funding

  - Must be in its own building **OR** receive SCDPS approval after a site visit that demonstrates the need for a state-funded SRO position.
    - If the school is in a building with another school or within a school complex with multiple buildings, contact your SRO Program Coordinator for additional clarification or to set up a site visit

- Law enforcement agency applicants should have already attended or reviewed the Applicant Training for *IntelliGrants* prior to this presentation. DEPARTMENT of PUBLIC SAFETY
PROTECT. EDUCATE. SERVE.

Welcome to IntelliGrants, the South Carolina Department of Public Safety's electronic grants management system!

The South Carolina Department of Public Safety (SCDPS) is pleased to unveil this effective, user-friendly, and reliable system that provides greater efficiency for Office of Highway Safety and Justice Programs (OHSJP) grant applicants and subgrantees.

How to Get Started: Applicant Training Video - January 16, 2025

- Registration on this page must be completed only by your organization's designated Agency Administrator (AA). The AA role is the person responsible for the day-to-day management of the organization's grants who is designated to initiate, view, contribute to and submit Applications, Training Requests, Procurement/Purchase Requests, Progress Reports, and Financial Reports. The AA role assigns and manages organization staff user accounts for any additional Agency Administrator, Agency Certifying Official (AO), Agency Contributor (AC), and Agency View Only (AV) security roles.
- The AA will click the New User link at the top right to begin registration. Once submitted, the request will be reviewed by an OHSJP staff member for verification. Please allow up to five business days for processing. Once approved, the Agency Administrator will receive a *Notification of Access Approval* email from the IntelliGrants system.
- Non-AA roles must contact their Agency Administrator to request access to the system rather than using the New User link on this page. Once the AA receives access, they are responsible for designating access to the organization's account to other staff members as they deem appropriate.
- Once registered, all users will have access to a Training Materials link, which features both print and video assistance.

Part 1 (Completed by the School District)

Frequently asked questions (continued)

- If the district has an eligible school on a university campus and the local jurisdiction cannot provide an SRO, can the University Campus Police be awarded a state-funded SRO? Answer: Yes, if a letter of support from the local jurisdiction is uploaded with the application.

- Does a separate Appendix A have to be completed if some new school requests use different law enforcement partners? Answer: No, you should consolidate all new requests in Part 1B of the same Appendix A.

- If the district has new schools opening after the summer break, can a state-funded SRO be requested on this Appendix A? Answer: Yes, you can include any new schools opening during the award period of July 1, 2026 through June 30, 2027 **if** it is not replacing a school that is closing that already has SRO funding in place.

Part 1 (Completed by the School District)

Frequently asked questions (continued)

- What should the district do if it has a state-funded SRO at a school that will be closed or consolidated for the 26-27 school year? Answer: Make your SRO Program Coordinator aware of the situation as soon as possible so that options can be explored.

- Is there anything further the district must do after forwarding a completed Appendix A to their law enforcement partners and copying the SRO Program? Answer: No, the district will be copied on any approved award sent to its law enforcement partners.

If any school district attendees have any other questions, please reach out to your SRO Program Coordinator.

The rest of the presentation pertains to the law enforcement agencies and their completion of the online application.
